

CERTIFICATE

Z 5.1 / 09 - 075 - 1

for
WaterproofX® 100

*single channel, multiple injection hose
for internal sealing of construction joints
in concrete structures with high water penetration resistance*

by injection with
acrylate gel, polyurethane resin, cement suspension

Manufacturer:

StekoX GmbH Abdichtungstechnik
Markgröninger Strasse 55/1
71701 Schwieberdingen, Germany

Based on:

Test reports no.:
P 5.1 / 08 - 356 of 10 October 2008
P 5.1 / 08 - 428 of 23 February 2009
by MFPALeipzig GmbH

Recorded performance characteristics:

Injection capability of hose sections of up to 30 m long
Safety against penetration of cement slurry
Bending radius at cold temperatures
Multiple injection capability and rinsing capability
Dimensional stability
Operational capability in integrated state

The product fulfils the requirements specified in the assessment principles.
This certificate is only valid for the test results stated in the above-named test reports of the examined
WaterproofX® 100 injection hose manufactured by StekoX GmbH.
