Lifetime of the RiveStop Product Range

RIVESTOP, producer of a hermetic sealing plug for waterproofing form tie hole in concrete walls, confirms that all sealing products are designed and engineered for a targeted life time of 120 years when used in accordance with its normal scope of use as indicated in the Technical Datasheet (encapsulated, no direct contact with sunlight, limited contact with oxygen), unless that there is in contact with chemicals to be avoided such as hydrocarbons or aromatic oils.

Please check the chemical resistance list for more detailed information.

A handwritten signature in blue ink, appearing to read "Asier Garrastachu".
